In line 3 of claim 11, insert "exhibiting bowing in a convex manner" after "wherein the layered substrate comprises sapphire on silicon" and before "and the epitaxial layer".

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The closest prior art is Molnar et al (US 6,086,673) and Iida et al (JP 53-028374). Molnar et al teaches forming an epitaxial III-V nitride on a layered structure which can include sapphire and silicon. Iida et al teaches a method of forming a silicon on sapphire substrate, wherein silicon is also formed on the backside of the silicon on sapphire substrate to make the substrate substantially flat. The prior does not teach or suggest a layered substrate comprises sapphire on silicon exhibiting bowing in a convex manner.
